Notification of Confirmed COVID-19 Case
9/28/2021

To: Boyd High School Family

We are notifying you that we have received a report of a confirmed case of COVID-19 within your child's grade.

Case: (1) Student Member
Last Present on Campus: 9/24/2021

Due to the potential close proximity and unknown level of exposure determination if your student is considered a close contact cannot be made. Quarantine for close contact is not required, if you choose to do so please contact your campus administrator and refer to the Boyd ISD health protocol on our district website. If a parent does not choose to quarantine their child please read the following information:

- Your child may continue to participate in regular activities, but monitor daily for COVID-19 symptoms as defined by CDC.
- As a potential close contact you may consider your child wearing a mask when out in public for the 10 day period while you monitor them for symptoms during the COVID-19 incubation period.
- If you choose to quarantine your child please contact your school administrator and/or coach/sponsor for further details.
- If your child begins to show symptoms we recommend having them evaluated by their private physician for accurate diagnosis.

If you or any member of our Boyd ISD family begins to experience any symptoms in a way that is not typical for your overall health, we encourage you to contact your physician. If anyone in our BISD community has a lab confirmed case of COVID-19, please contact Director of Health Services, Whitney Lamance at 940-433-9560.

Sincerely,

Tami Vardy

Boyd ISD Superintendent
